ВЕБИНАР

Чтобы лучше понять, как работает создание нейрофото на практике, важно увидеть весь процесс целиком — от идеи до готового результата.

В формате текста можно разобрать принципы и подход, но именно в живом разборе становится понятно, как формируется сцена, как пишется промт и как нейросеть реагирует на разные параметры.

Поэтому мы подготовили подробный вебинар, в котором показан полный процесс создания нейровидео шаг за шагом.

ВЫ УВИДИТЕ:

- как из идеи формируется визуал
- как задаются параметры
- как получается итоговое фото

A high-resolution photorealistic portrait of an adult man in a professional photo studio. He is seated in a dark brown leather armchair, with a relaxed and natural posture that conveys quiet confidence and calmness. In his hands he holds a closed book bound in dark red morocco leather, adding a subtle classic and intellectual mood to the scene. He is dressed in a plain pale blue shirt and black jeans, with the clothing looking natural, well-fitted, and understated.

His gaze is directed straight into the camera, creating a direct and engaging connection with the viewer. The facial expression should be calm, composed, and slightly contemplative, without exaggerated emotion. The lighting is soft and diffused, wrapping gently around the face and body, creating smooth transitions, realistic depth, and natural shadows without harsh contrast. Special emphasis should be placed on authentic, lifelike skin texture — visible pores, subtle imperfections, and realistic facial detail — while avoiding any over-retouched or artificial appearance. Skin tones must look natural and believable.

The overall image should have muted saturation, with subdued and restrained colors that create a refined, elegant, and slightly moody atmosphere. The background should remain simple and unobtrusive, keeping the full attention on the subject, the leather chair, and the book. The final result should feel polished, realistic, and editorial in quality, with photorealistic detail, natural skin tones, soft lighting, and realistic shadows.

She is seated in an elegant pose on a classic white wicker chair, its back adorned with soft cushions. Her posture is poised: back straight yet relaxed, legs crossed at the ankles or knees, hands resting gently in her lap. The chair is positioned to face the breathtaking view of the sparkling turquoise ocean and the horizon.
